

FINANCING

If you need to finance your purchase it might be a good idea to consider a mortgage with a Spanish bank. There are many banks that offer mortgages to international customers.

We work together with Banco Sabadell in Nerja and Almunecar. It is a very professional bank that specialises in making your customer experience similar to that in your home country. You can also consider the mortgage at banks CaixaBank and Unicaja.

They speak English, German, French and Spanish. They have the most satisfied customers in the banking sector according to a recent survey.

Banco Sabadell can finance up to 70% of a holiday home purchase for non-residents. This is to the lowest of either the purchase price or the bank valuation. If you are interested in more information we are happy to connect you with our contact at the local branch.
